

# The Role of Decision Models in Analytic Excellence

James Taylor  
CEO

# James Taylor

## Decision Management Solutions

- ▶ We work with clients to improve their business by applying business rules & analytic technology to automate & improve decisions.
- ▶ I have spent the last 14 years focused on the development of analytic applications using Decision Management
  - ▶ Original DMN submitter
  - ▶ Using decision modeling since 2011
  - ▶ Dozens of decision modeling projects and nearly 1,000 trained

# Agenda

---

- ▶ Framing Analytic Requirements
- ▶ Operationalizing Analytics
- ▶ Orchestrating Operational Analytics
- ▶ Tracking Decision Performance

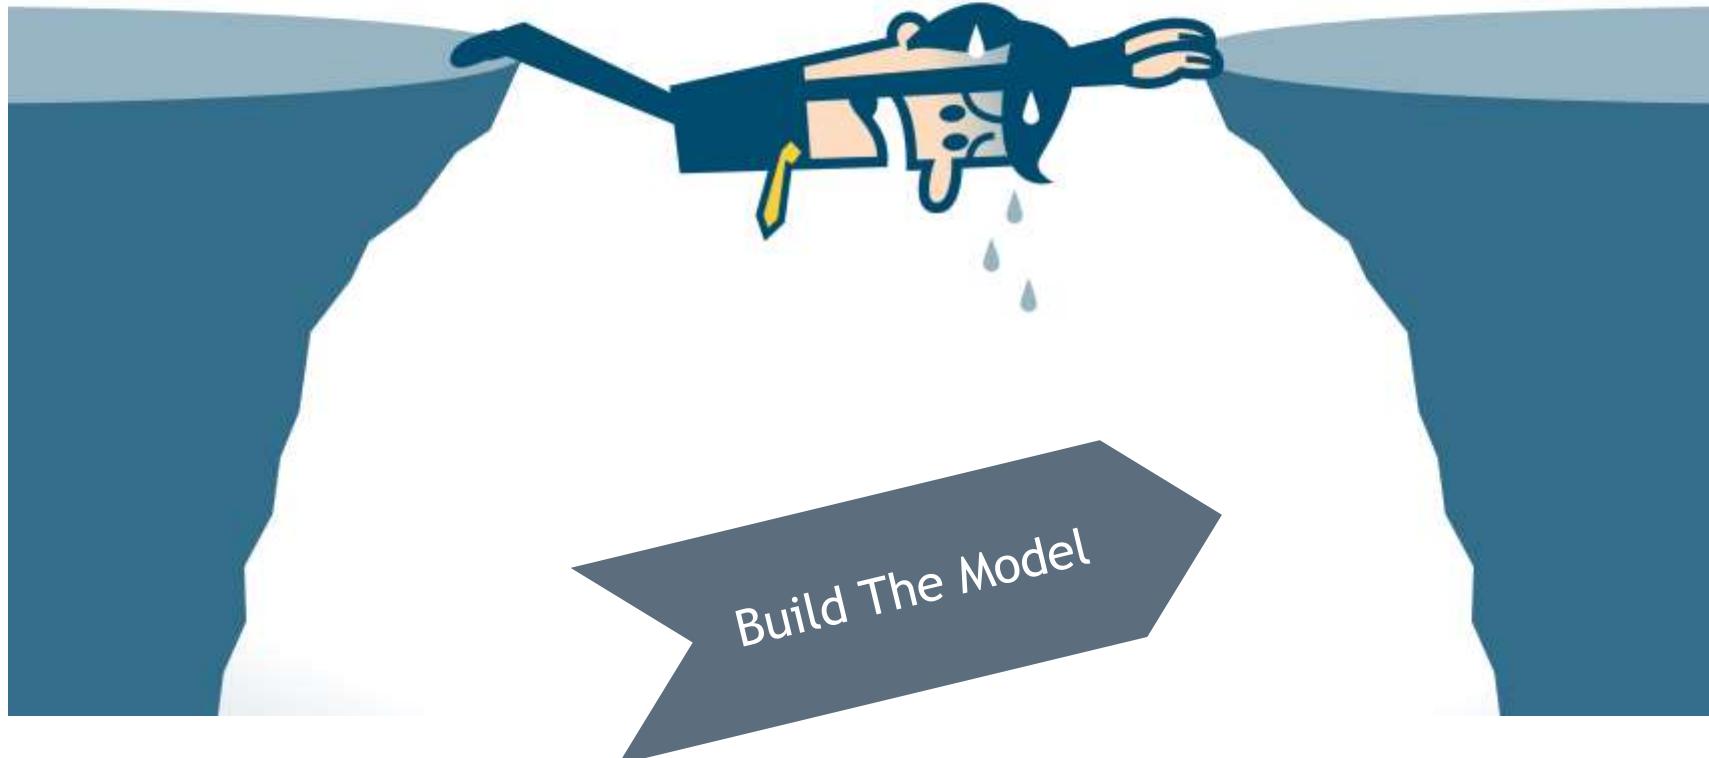

# Magical Thinking About Analytics

**BIG**  
**DATA**

# A Focus Only On Building Analytic Models Results In A Dangerous Gap

**BIG**  
**DATA**

# Decision Modeling Closes The Gap

**BIG**  
**DATA**

Frame The Problem

Build The Model

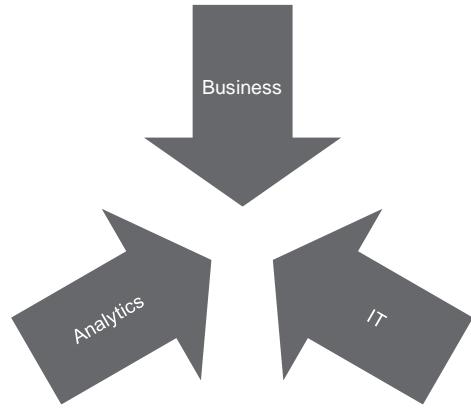

Operationalize  
The Solution

DECISION  
MANAGEMENT  
SOLUTIONS

# Decision Modeling: Framing Analytic Problems

# Challenges Framing Analytics Problems

Poor collaboration with business and IT partners

Too many iterations

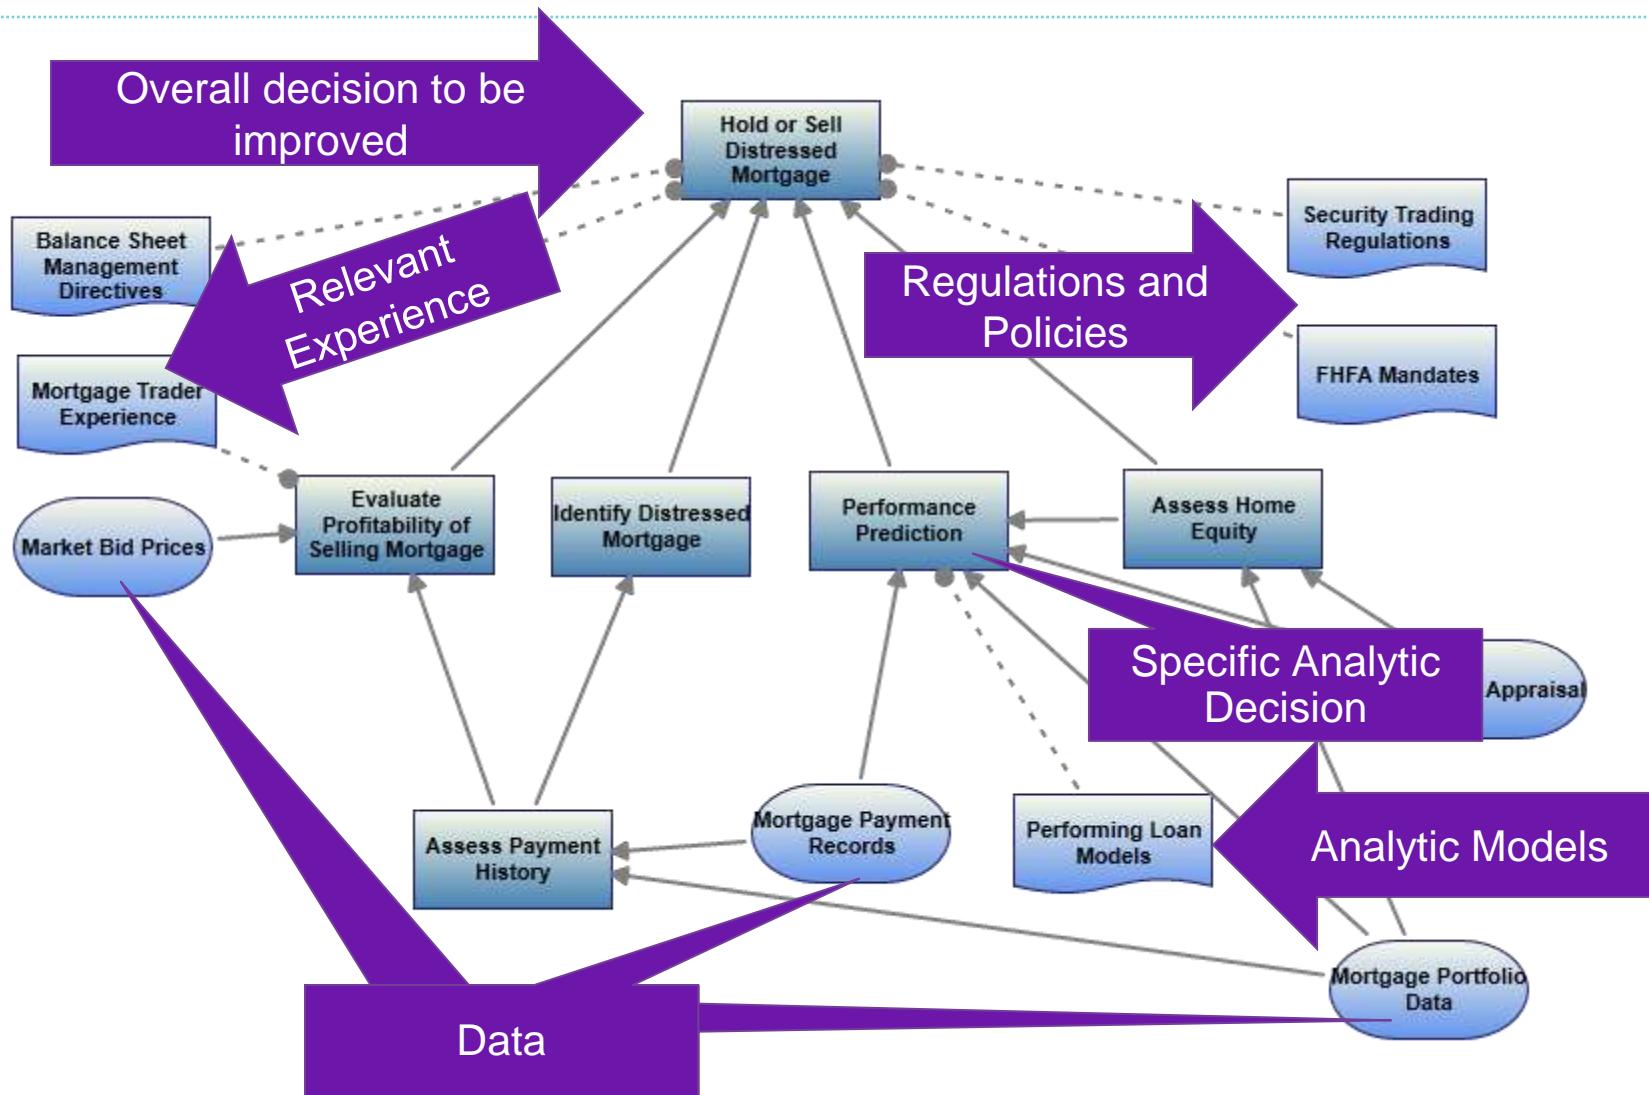

Too many distractions

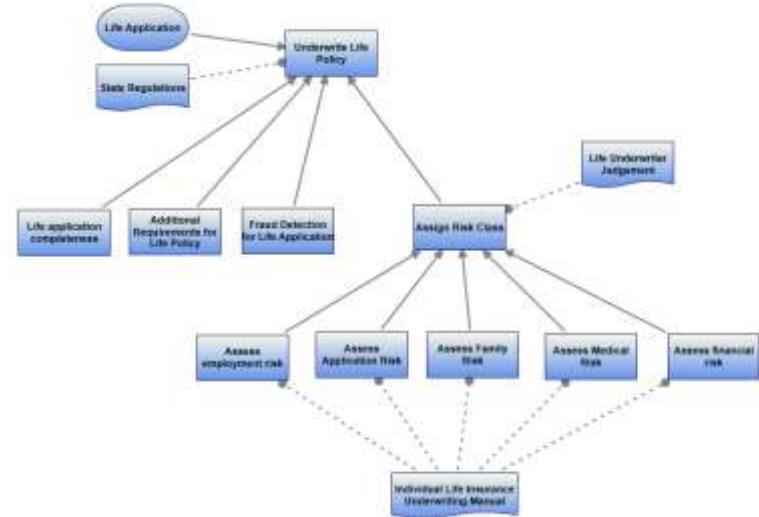

Business value not the focus

# Decision Modeling Frames Analytic Requirements

# Case: Framing The Problem Correctly

- ▶ Life insurance provider
- ▶ Decision model of life underwriting decision
- ▶ Identified that a planned medical risk prediction would not be usable
- ▶ Project was redirected
- ▶ No wasted effort

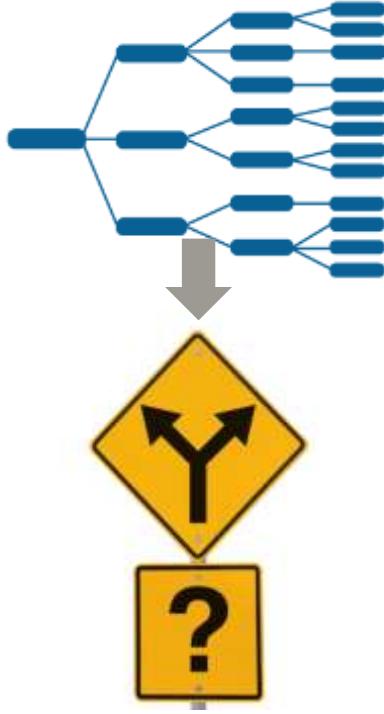

DECISION  
MANAGEMENT  
SOLUTIONS

# Decision Modeling: Operationalizing Analytic Solutions

# Challenges Deploying Analytics

# Ineffective deployment leaves analytics on the shelf

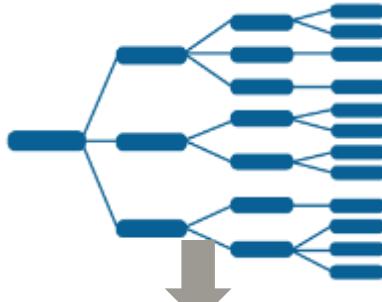

Analytic results are prioritized, not business results

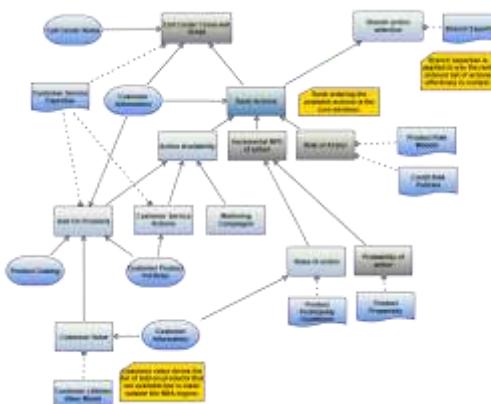

Timeliness and sustainability are not considered

# Decision Models Ensure Analytic Deployment

# Show how the analytic impacts a business decision

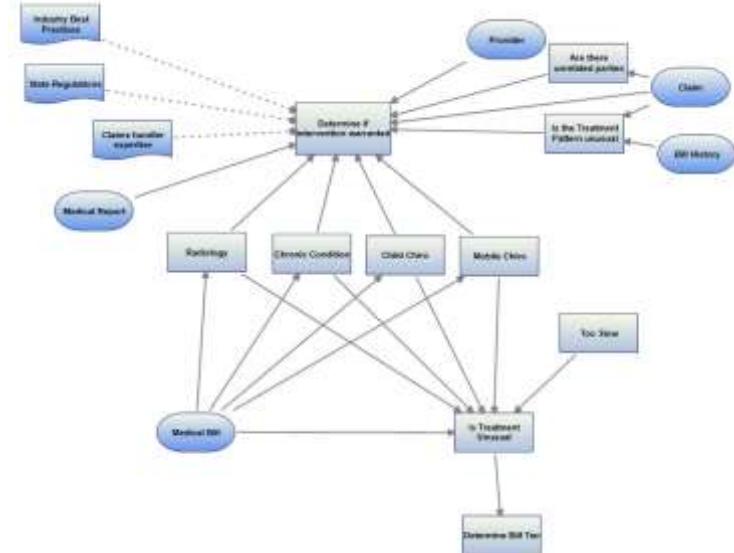

Tie the analytic to the decision and to business results

Use the decision context to frame deployment and sustainability needs

# Case: Decision Models Improve Manual Deployment

- ▶ Healthcare insurance provider
- ▶ Developed a decision model for healthcare claims adjudication
- ▶ The model showed where and how to use a fraud analytic
- ▶ Increased usage
- ▶ Improved results

SOLUTIONS

# Decision Modeling: Orchestrating Operational Analytics

# Decision Models Show The Balance Between Analytics and Business Rules

# Case: Decision Models Operationalize Next Best Action

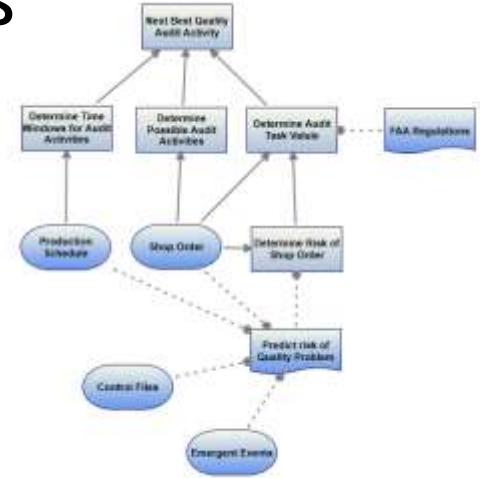

- ▶ Customers use multiple channels
- ▶ A common service suggests actions
- ▶ Using business rules **and** predictive analytics in combination
- ▶ These are continuously improved
- ▶ And managed by a decision model
- ▶ That contains channel-specific decisions that reuse common ones
- ▶ Automated with business rules and analytics

# Case: Decision Models Improve Quality In Manufacturing

- ▶ Manufacturing company
- ▶ Identified predictions of quality risk
- ▶ Could change task assignments
- ▶ Developed decision models around product quality
- ▶ Found opportunity to analytically focus daily activities of quality team

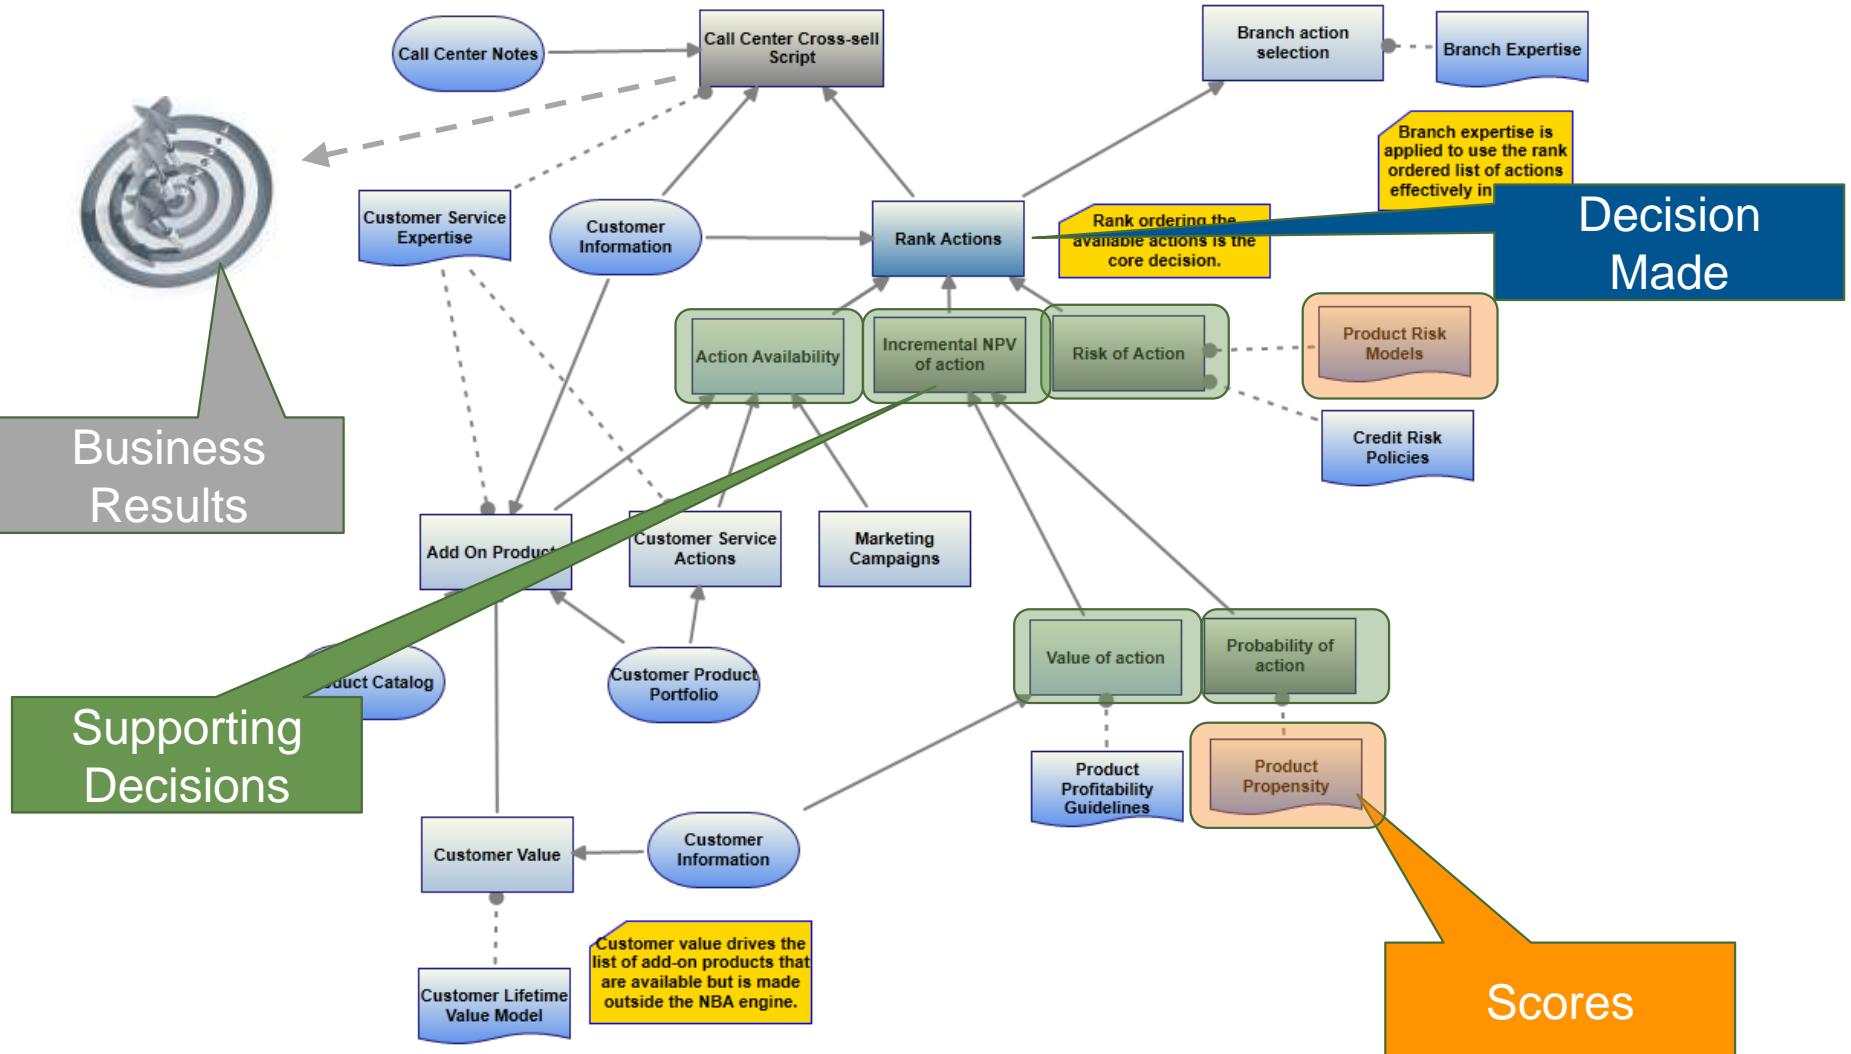

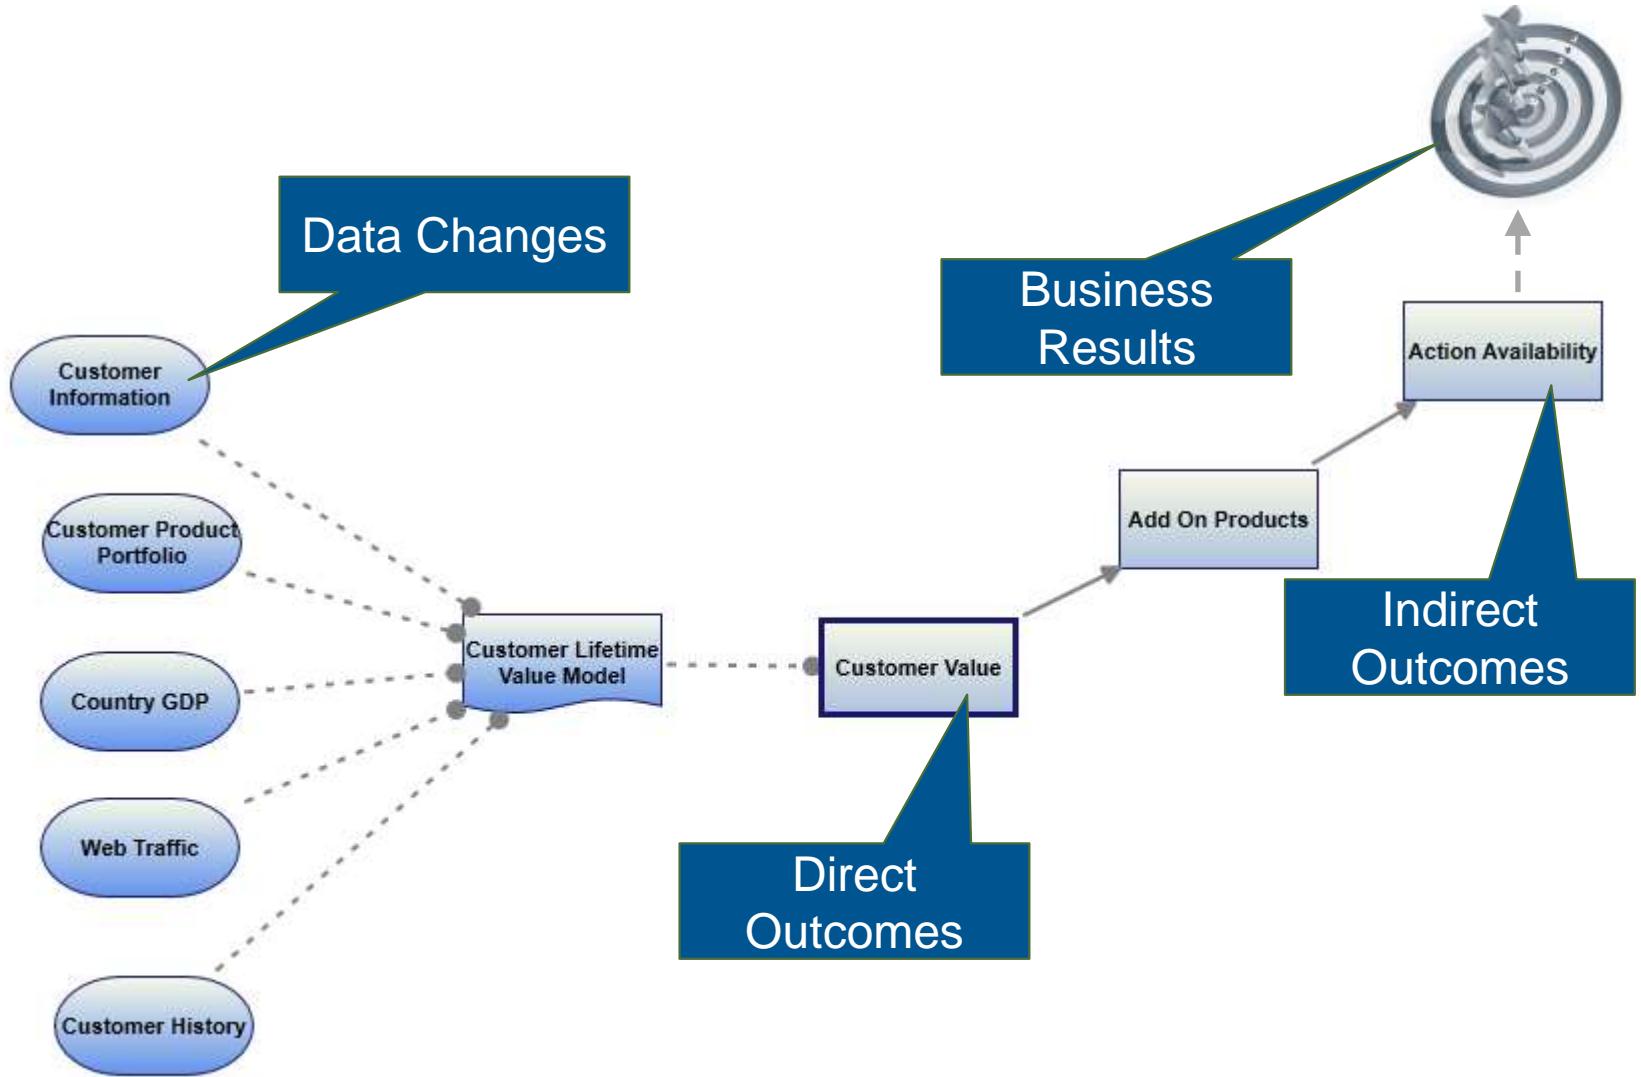

DECISION  
MANAGEMENT  
SOLUTIONS

# Decision Modeling: Tracking Decision Performance

# Decision Models Show How To Analyze Analytic Effectiveness

# Decision Models Reveal Tracking Needs

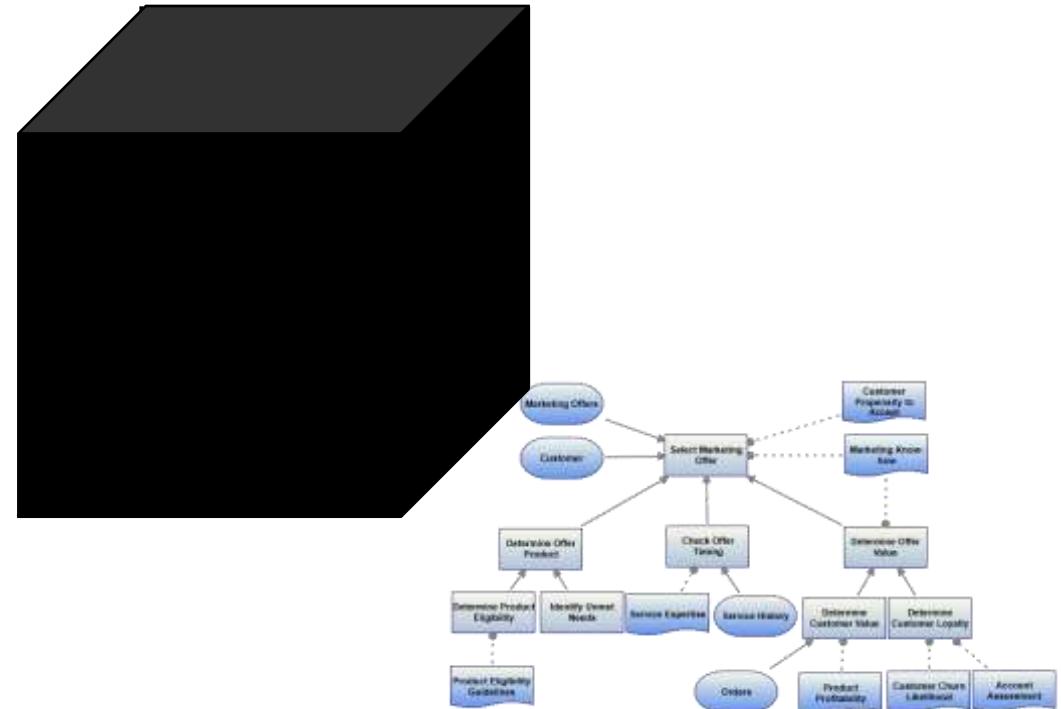

DECISION  
MANAGEMENT  
SOLUTIONS

# Wrap Up

# Don't Leave Analytic Projects In The Dark

## ► Model Decisions

- Frame Analytic Requirements
- Operationalize Analytics
- Orchestrate Analytic Components
- Track Analytic Results
